

PCEEC 2026

PHILIPPINE CONFERENCE ON ENERGY EFFICIENCY & CONSERVATION

Building Greener and Smarter:

Advancing Energy-Efficient, Low-Carbon Buildings through Policy and Smart Technologies

Shangri-La The Fort, Manila

July 29 - 31, 2026

PCEEC 2026

PHILIPPINE CONFERENCE ON ENERGY EFFICIENCY AND CONSERVATION

EVENT OVERVIEW

PCEEC 2026 aims to advance the country's transition toward a smarter, greener, and more energy-efficient building sector by fostering a cohesive platform for policy strengthening, technological innovation, and multi-stakeholder collaboration. Specifically, it aims to:

Strengthen National Energy Efficiency Initiatives

Promote stronger collaboration among government agencies, local government units, industry stakeholders, and development partners in advancing energy-efficient and climate-responsive building practices.

Accelerate Innovation and Digital Transformation

Showcase advanced technologies, smart systems, and data-driven solutions that enhance building operations, optimize energy use, and improve overall efficiency and sustainability.

Encourage Sustainable Investments and Market Growth

Expand awareness of financing opportunities, business models, and investment strategies that support the implementation of energy efficiency projects across commercial, industrial, and public sectors.

Advance Knowledge Sharing and Professional Development

Facilitate the exchange of research, technical expertise, operational experiences, and capacity-building opportunities that strengthen the country's energy efficiency workforce and institutional capabilities.

Promote Gender-Responsive and Inclusive Energy Solutions

Encourage women's meaningful participation across all conference components, equitable access to clean energy solutions, just transition principles, and people-centered approaches that ensure energy efficiency initiatives remain accessible and beneficial to all sectors of society, consistent with GAD mainstreaming commitments and inclusive EEC policy design.

EVENT PROGRAM

DAY 1: PLENARY SESSION

Keynote Presentation:

"Building as Economic Assets: The EEC Act as a Driver of Sectoral Transformation and Sustainable Growth"

SESSION 1: Policies and Governance

SESSION 2: Scaling Efficiency through Innovation & Partnership by Philippine Energy Efficiency Alliance, Inc. (PE2)

DAY 2: BREAK-OUT SESSIONS

BREAKOUT 1: Academic Track

BREAKOUT 2: EE Practitioners Track

SESSION 3:

Messuring What Matters: Data, Metrics, and the Science Behind Energy-Efficient Buildings in the Philippines

SESSION 4:

Competence, Compliance, and Change: Strengthening the Energy Efficiency Professional Pipeline for a Low-Carbon Building Sector

SESSION 5: Gender Inclusivity and Social Equity

Leaving No One Behind: Gender, Equity, and the Human Face of the Philippine Energy Transition

DAY 3: EXHIBIT DAY - TECHNOLOGY SHOWCASE AND MARKET EXPLORATION
